EXPLAIN NEW INCREASE IN MILK PRICE

Pure Milk Group Pleased With Raise to Local Dairymen

Beginning August 1, 1937, Pure Milk Association members will receive 75 cents per hundred pounds for their base milk as a premium over average monthly condensed milk prices, i.e., country plants, receiving stations, and loading platforms.

This will be 25c per 100 lbs. increase in the premium now paid for quality milk—which is now 50c per 100 lbs. over average monthly condensed price for 100 per cent of base. The prices received by the Pure Milk Association members so far during July, 1937, is \$1.917 per 100 lbs. of base milk.

However, the agreement between Pure Milk Association members and distributors calls for a peg in the condensation prices as follows: Low, \$1.40 per 100 lbs.; high, \$1.60 per 100 lbs., which means that during the life of this new price agreement beginning August first, 1937, Pure Milk Association members will receive: Not less than \$2.15 per 100 lbs. and not more than \$2.35 per 100 lbs. for their base milk at country plants, loading platforms, or cooling stations. All other terms of their contract with distributors remain unchanged.

Present high prices of feeds and the increase in the price of farm labor, not to mention other items of expense because of compliance with the Grade A health law, all of which added to the cost of production of quality milk by Pure Milk Association members, are responsible for this increase.

Announce Carnival at Camp Lake Oaks

The annual carnival, long an outstanding event among summer residents at Camp Lake Oaks, will be staged this year on Saturday, August 7, from 6 o'clock on, according to announcement made this week by the Camp Lake Oaks Improvement Association, sponsor of the affair.

"Everybody is invited and a gala evening is assured for all," says Carl D. Olson, committee member in charge of arrangements. There will be music, games, stunts, dancing and prizes, and there will be plenty to eat and drink. Ample parking space is provided.

Farmer's Exchange Launches Sale On First Anniversary

A full page advertisement in this issue of the News announces the first anniversary sale at Wilets' Farmer's Exchange. Scores of items of merchandise will be offered at bargain prices this week end in appreciation of the splendid patronage the store has received the past year.

Coming to Antioch a year ago to open the store in the Masonic building, Mr. Wilets and his wife, a co-partner in the business, at once launched a campaign to bring to Antioch the patronage of this trade area which they believe belongs to the home town. They brought with them not only an excellent stock of merchandise in almost all lines, but also an experience in up-to-date merchandising methods acquired in their long and successful career in Oconomowoc, Wis. Wilets believes in the liberal use of printer's ink in business promotion, and the store from the start has been a consistent advertiser.

Not only among farmers of the surrounding trade area has been an enviable trade been established, but the store is patronized liberally by townspeople as well. Mr. and Mrs. Wilets are justly proud of the business reputation they have earned in a brief 52 weeks in business in Antioch—they are appreciative, too—and they are saying so with bargains this week-end.

Attends Gossard School
Mrs. Clarence Schultis, who is employed at MariAnne's Dress Shop, was in Chicago Tuesday attending the Gossard School of Corsetry at the Palmer Hotel.

Specialized service has taken on an added importance in the modern retail store and MariAnne's has adopted this advanced merchandising idea.

The Gossard School of Corsetry is acknowledged to be the largest and foremost institution of its kind in the United States.

Hee! Haw!-Donkey Baseball Tonight

They're back again—the famous Donkey baseball team to provide a variant of the old and amusing game at Naber field tonight in a game with the Antioch Boosters.

The Donkey team appeared here last year in a game with the locals and the fans saw something really funny. Maybe the players hit the ball and maybe they don't. Maybe they get on base and maybe they don't—that all depends on what the donkey thinks about it.

The game will start at 9 o'clock tonight. Be sure you are there when the ump yells, "Mule up!"

JIM McMILLEN AND INDIAN CHIEF HEAD ROUND LAKE MAT CARD

Sanooki Faces "Big Jim" in Finish Match Friday Evening

One of the greatest wrestling cards ever presented in Peg's Round Lake arena will be staged Friday night and will feature a match to the finish between "Big" Jim McMillen, leading contender for the world's mat championship in his first local appearance this summer, and Chief Osley Sanooki, giant 330 pound Indian strongman.

JIM McMILLEN

Lake county mat fans have been promised an outstanding card by local promoters out of sympathy to those patrons who missed a part of last Friday's program when they left early because of rain.

Claims Fluke at White City

The Sanooki-McMillen encounter is a rematch of a meeting several weeks ago between the pair in White City, Arena, Chicago. In this match Sanooki claims he pinned McMillen for the count while the referee lay helpless outside of the ring, and by the time he had returned to officiate McMillen had broken away and put down the Indian star. Sanooki agreed to drop a formal protest up with the state athletic commission if McMillen would meet him again to settle the score and the match was closed.

The semi-windup also should prove a thriller and a real test of actual wrestling ability against rough and tumble style. Fred Grobner, world famous exponent of the rib-crushing body scissors and one of the truly great mat stars of today, has been "rung in" to stop the winning streak of wild and woolly Rudy Kay, who won on a "fluke" when his opponent "Bad Boy" Brown slipped on the rain soaked canvas last week at Round Lake, is gunning for a title bout and if he can get by Grobner he may get his chance.

Three additional bouts complete the five-match card, promoters having included an extra bout because of the rain last week. In one of the preliminaries the great colored warrior, Jack Claybourn, returns after a win at Round Lake to tangle with the Canadian champion, "Bully Boy" Kogut in a thirty minute match. Al Perry, clever Oklahoma matador, will face the Greek star, Mike Kilonis, in another thirty minute encounter while on the fifth bout North Chicago's new mat star, George Zorsey, will tackle George Vanderburg, German ace.

Undergoes Operation
Mrs. H. F. Beebe underwent an operation at the Presbyterian hospital, Chicago, Tuesday morning.

ANTIOCH LIONS CLUB COMPLETES ORGANIZATION

Hold First Meeting Monday Night at Round-Up; Boyles Speaks

Final details completing the organization of the newly formed Antioch Lions club were announced early this week following the first regular meeting of the group at the Round-Up Monday night.

Dr. David N. Deering, secretary, and S. Boyer Nelson, chairman of the membership committee, announced completion of the roster of charter members which had reached the requisite of 30 names, while President Ed Vos made plans for the first meeting of the board of directors on Monday night at which time arrangements will be made for Charter night to be staged soon after Labor day.

Visitors Take Charge
With Russ Boehm, president of the Libertyville Lions club, presiding, visiting Lions from three Lake county clubs had a part in conducting the first meeting of the local group at the Round-Up Monday night. President Boehm brought with him from the Libertyville club Secretary M. E. Painter and Chief Taittwater, W. E. Larson, while the delegation from Fox Lake was headed by Wm. Kitsman, president, and there were several from the Waukegan club, including Attorney John Logan Boyles who made an eloquent address setting forth the object of Lionsism. President Kitsman of Fox Lake also spoke, telling of the somewhat ambitious program the Fox Lake club has set out to accomplish. Besides promoting the Lotus Festival which opens August 7, the Fox Lake Lions will release a \$500 prize fish on the opening day of the festival.

Five Clubs in County
Boyles, a veteran member and officer of the Waukegan club, told of the various achievements of the Lions International which he declared was perhaps the most active organization in the country, having 3000 clubs, representing every state in the union and eight foreign countries.

"Every individual desires success," Boyles said, "but few are willing to pay the price to achieve it. It's the same with organizations—it takes effort to get things done. Lions clubs everywhere have built up a well-earned reputation for constructive and worthwhile activity."

OLD RESIDENT DIES AFTER LONG ILLNESS

Hold Funeral for Miss Mary Gaggin, 78; Born in Salem Township

Miss Mary Gaggin, 78, a lifelong resident of this vicinity, died at Victory Memorial hospital in Waukegan at 2:00 o'clock Saturday morning after an illness extending over a period of 18 months.

She was born in Salem township in Wisconsin July 11, 1859, and in that community she spent 52 years of her life, coming to Antioch 26 years ago. She bought a home on Victoria street where she resided until her death.

Surviving are three brothers: Thomas of Antioch; Dr. Frank Gaggin of Chicago, and John of Salem, Wis. Four sisters preceded her in death.

Funeral services were held at the Strang funeral home at 2:00 o'clock Monday afternoon and burial was in Liberty Corners cemetery.

Home Bureau Will Hold Annual Garden Party

The Lake County Home Bureau will hold its Annual Garden Party on Tuesday afternoon at 2 p. m., August 3, at the home of Mrs. E. E. Elsbury on Grand avenue, three miles west of Gurnee.

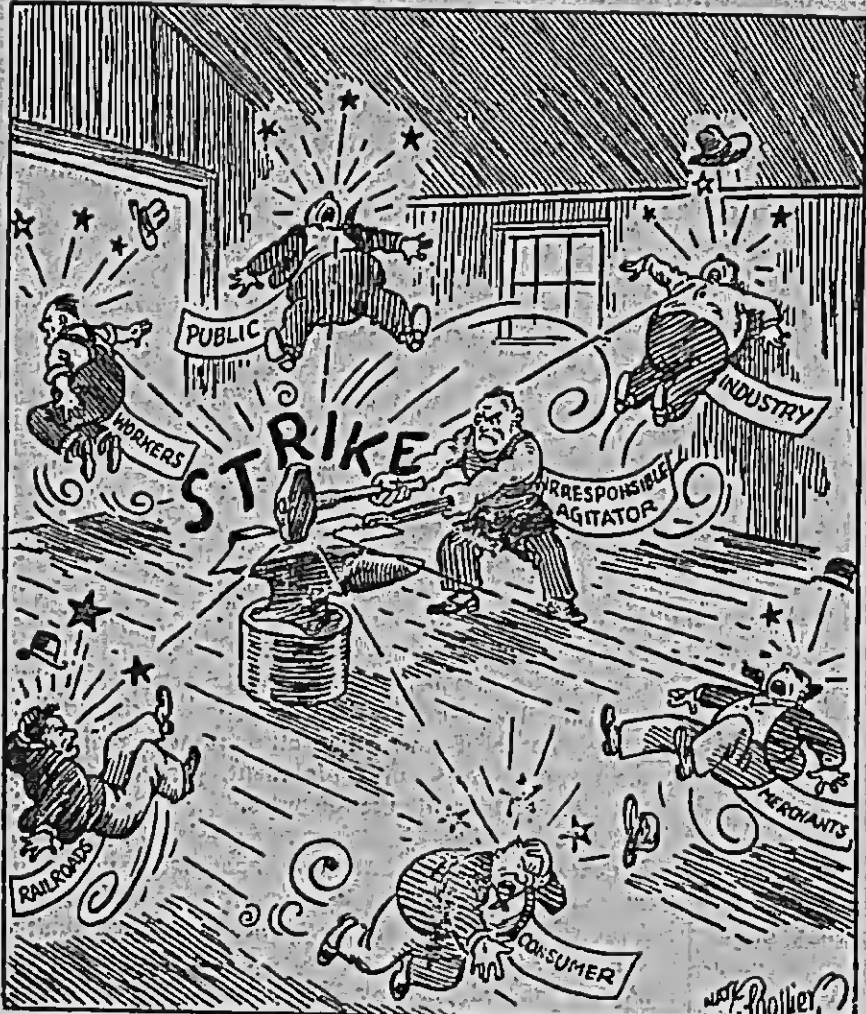

Mrs. R. A. Bennett of Barrington will be the speaker of the afternoon. The title of her talk is "Adventuring Down the Andes." She will especially emphasize home life among the South American Indians.

Mrs. Bennett is well known in Lake county and it will be a pleasure to hear her fine talk. Mrs. Bennett is leaving shortly to return to South America with her husband.

A group of musical numbers will be given after which refreshments will be served through the courtesy of Public Service Company.

The committee in charge of the Garden Party includes Miss Elizabeth Wirtz, chairman; Mrs. Lewis Mills, Mrs. Harry Edwards.

LET THE SPARKS FLY WHERE THEY WILL

Heads Lion's International

FRANK V. BIRCH
MILWAUKEE, WISCONSIN
1937 PRESIDENT, 1938 LIONS INTERNATIONAL

Frank V. Birch of Milwaukee, Wisconsin, was elected Friday to the presidency of the International Association of Lions Clubs, at the closing session of the four-day International convention held in Chicago July 20-23. For the past year he served as first vice president. The association which he heads is represented in eight countries by nearly 3,000 clubs with a 100,000 membership of business and professional men.

The new president is a partner and executive vice president of the national advertising agency of Klau-Van Pietenom-Dunlap Associates, Inc., of Milwaukee. He has been active in Lions Club work over a long period. In the Milwaukee club he held the offices of vice president, director and president, in addition to heading many of its major committees, in 1919-30, he was elected to the governorship of the district of Wisconsin, the following year was a member of the Executive Council of the Board of Governors for the International Association, and in July, 1931, at the convention held in Toronto, Ontario, he was elected a director of the International Association.

Gov. Horner Seeks Federal Approval of Road Program

Governor Henry Horner will forward to Washington this week for approval of the United States Bureau of Public Roads a \$2,095,520 secondary road building program for 1937, to be financed half by federal funds and half by state funds. This is the first schedule of highway improvements for Illinois under the Federal Secondary Road System of 10,000 miles authorized by the 60th General Assembly.

An inventory of Illinois roads lists 10,231 miles of primary roads, which include federal-aid and state bond issue roads, the 760 miles of state-built secondary roads, 4,342 miles of county-built roads and approximately 75,000 miles of unimproved roads.

Chest Clinic to Be Held Next Wednesday

The next chest clinic sponsored by the Lake County Tuberculosis Association will be held Wednesday, Aug. 4, at St. Theresa Hospital in Waukegan. Clinic hours are from 9 a. m. to 3 p. m. Examination is free to anyone who is unable to pay for such an examination.

CHICAGO BOY IS COUNTY'S 18TH DROWNING VICTIM

Edward Malinowski Loses Life in Cedar Lake; Child Drowned in Long Lake

Two drownings in nearby lakes this week brings the county death toll to 18.

First to lose his life was six-year-old Donald Stewart Sylvan, son of Mr. and Mrs. T. H. Sylvan, who was drowned at 8 o'clock Tuesday evening in the channel of Long lake near the Sylvan home. The child's father recovered the body.

Surviving are the parents, a sister, brother, and the grandparents. The family has been living at Long Lake for the past two months.

Chicago Boy, 18th Victim

Edward L. Malinowski, 15, of 5232 Winnamac ave., Chicago, was drowned in Cedar lake shortly after noon yesterday while swimming after a boat that was adrift with his younger brother.

Young Malinowski in company with his brother and another boy had come to Sherwood's camp at Lake Villa, but for some reason yesterday they rowed over to the diving raft used by the Allendale swimmers. While the two older boys were on the raft, their boat carrying Malinowski's younger brother was seen to be floating away. It was while attempting to swim to the boat that Malinowski was drowned. His body was recovered five hours later in 35 feet of water by John Effinger of the Lake Villa fire department. Four boat crews had been searching for the body.

At the inquest conducted by Coroner J. L. Taylor at the Strang funeral home last night the jury rendered a verdict of "accidental drowning." The body will be removed today to Chicago for burial.

Antioch Teachers Enroll for Summer Courses

Ralph Easton Chabough, of the Antioch elementary school, is among the students who are enrolled this summer at Northwestern university.

Nearly 4400 students, representing every state in the Union and many foreign countries, are attending the session, which is the largest in the history of the university. Courses in more than 300 subjects, taught by a faculty of 315, of whom 118 are visiting instructors, are being offered on Northwestern's campus on the shore of Lake Michigan.

Margaret Eileen Fitzgerald of Evanston, teacher in the grade schools of Antioch, is also attending this summer session.

Manxman Here Invited to Annual Convention

Manxmen in Antioch community have received invitations to attend the annual convention of the North American Manx Society which is to be held in Rochester, N. Y., August 30 to 13. Representatives from the Isle of Man and over 400 Manxmen will be in attendance, according to Ed Garrett.

Other natives of the Isle of Man and their descendants who live in this locality are William Kelly, now recovering from illness at the home of his son in Chicago, Douglas Leccc, Fred Kinrade, Even Kaye, and Clair Kelly.

Interest High in August Party at St. Peter's Hall

The success of the annual August party at St. Peter's hall Thursday, August 12, is assured if the number and quality of the prizes offered can turn the trick, according to committee members who declare that interest in the event is running high with each of the sub-committees determined that its special charge will be the outstanding attraction. This rivalry extends also to the refreshment committee.

Besides the many attractions offered there will be the usual card games of bingo, bridge and five hundred. One of the featured prizes offered is a hand-crocheted bedspread.

GEORGE STRAWN DIES IN BELVIDERE

George Strawn, nephew of the late Edward Delavergne of Antioch, died Friday in Belvidere, Ill. He was well known here through visits in Antioch, and had many classmates from this county while at DeKalb Teachers College. Funeral services were conducted at Flora church in Boone county, with Rev. Cedric Pope, college classmate and former debate colleague of the deceased, officiating.

Endangering the Public Health

A Department of Agriculture survey indicates that providing the right food for a family of five in proper quantity, calls for an expenditure of approximately \$50 per month.

Inasmuch as not more than a third of the family income can be spent for food, a healthful diet cannot be had if the income of a family of five is less than \$150 per month.

Surveys such as this, being necessarily limited in scope, cannot be entirely accurate. But these figures point squarely to one fact: That current legislative efforts to hamstring low-cost merchandisers, fix prices, and outlaw economical retailing methods are a direct threat to the public health.

It is an old truism that in a period of recovery, prices usually rise faster than the individual income. That is true today, as it was following the mild depression of 1921 and during the recovery of 1933. In the face of this, for government to artificially inflate prices is nothing less than a social crime.

The law should make every effort to keep a maximum amount of honest competition in merchandising. It should use the authority of the trust laws to make price fixing illegal. I should encourage, rather than discourage, low-cost retailing which cuts distribution charges between producers and consumers. Only if this is done, can the average family's food dollar purchase the commodities necessary to health and comfortable living.

The Flood Control Myth

It is becoming increasingly evident that lumping power development with flood control, as is done in governmental hydro-electric projects, is economically and scientifically wrong.

From the engineering standpoint, a dam that is suitable for steady power production is next to useless for flood control. A power dam must be kept full of water, in order to maintain the flow that produces energy. A flood control dam must be kept empty, in order that it may be instantly ready to receive and hold excessive run-off in time of flood.

The camouflage of flood control serves a political purpose. It enables officials to write off a large part of the cost of power development to "flood control," and

make the "power" investment appear much less than it really is. It thus makes it possible to show figures on operating and investment cost that are misleading.

But that doesn't help a community in time of flood. Nor does it help the taxpayers, who are putting up hundreds of millions to pay for the dams. It doesn't help the investors in the private utility industry, who see their savings endangered. It doesn't help private enterprise, which is becoming increasingly chary of investing its money in productive enterprise, for fear of excessive governmental regulation and competition which will make profits impossible.

It has been proposed that legislation be passed whereby flood control will be divorced from power production in the Federal projects. If such a bill became law, the people would have a chance to find out the truth, the whole truth and nothing but the truth about the real cost of the government ventures. Under present conditions, the facts can be buried deep beneath evasion and camouflage.

Laws and Democracy

When we look at Russia and Germany and Italy and other nations now living under dictatorships so severe that people are even afraid to think, we find they had one thing in common before dictators ascended the thrones. This was a highly centralized government vested with powers to control almost every activity of citizens in the most remote sections of the country.

The United States has been different. It has had a division of powers between the States and the national government. When depression comes along, however, there is always a tendency by States to yield some powers to the national government. The depression from which we are struggling to emerge was no exception. With millions idle, the federal government took over most of the relief and other burdens and, realizing that labor disputes cause unemployment, passed the Wagner Act designed to stop the disputes.

There are valid objections to that law, one being that it imposes no duties whatsoever upon labor unions. But pass those up, and see just how much basic good the federal government's entrance into that field has done.

First, there are many more strikes than before the law was enacted. Today, the problem is not solely one of caring for those who stand outside the factory gates seeking jobs. There are millions of others who are kept away from their work by strikes and violence and threats of harm to themselves and their families. Under State laws, such conditions rarely existed.

The Wagner Act is law, and must be lived up to. But it should be an object lesson to those who now propose to let the Federal government go even further into a field which would eventually call for Federal fixing of the wages and hours of every store clerk, every farm hand, every factory worker.

Mrs. Jacob Drom and daughter, Edna, Antioch, called on the Patrick families Friday afternoon.

Mrs. Joe Burke and children, Chicago, visited at the Jake Christensen home Friday.

Mr. and Mrs. Alfred Dahl motored to Crystal Lake Thursday evening. Their son, Johnnie, returned home with them after spending the past week with the Nielsen family.

Mrs. James Walsh spent the past week with relatives in Chicago.

George Hallett called Friday at the Joseph Smith home.

Mrs. William Evans, Mrs. George Robinson and daughters, Mrs. Earl Elfers and Mrs. Sweeney called on Mrs. Tony Fredson and daughter, Mrs. Gretchen Yopp, Grayslake, on Friday afternoon.

Clarence Runyard, Chicago, spent the week-end with the home folks.

Mrs. Winn Peterson, Wilmett, called at the Patrick sisters' home on Sunday evening.

Mrs. Fred May, Antioch, called on Mrs. William Evans Friday.

Mr. and Mrs. Earl Elfers were treated to an old fashioned charivari at their home at Rock Lake.

Miss Pauline Copper, Chicago, spent a week's vacation with her mother, Mrs. Mattie Copper.

Mrs. Elsie Miller, son, Frederick, and lady friend, Chicago, were callers at the Charles Oetting home Saturday.

Mr. and Mrs. Joseph Holly, Oak Park, spent Sunday at the Mrs. Anna McKay home.

Mrs. Helen Hallett, daughter, Mrs. Vera Huntton and sons, Billy and Robert Huntton, Kenosha, called at the Charles Oetting home Sunday morning.

Mr. and Mrs. Chris Schaffer, Jr., and son, Herbert, near Brighton called at the Joseph Smith home Sunday afternoon.

Mr. and Mrs. Kohlberg, Chicago, spent Sunday with their son, Edward, at the home of Mrs. Kohlberg's mother, Mrs. Ottilia Schumacher.

Mrs. Charley Thornton, North Fond du Lac, Wis., who is visiting her parents, Mr. and Mrs. Al Norman in Antioch, called on her sister-in-law, Miss Ruth Thornton, Sunday.

Mrs. Charley Oetting and Mrs. Joseph Smith were Wilmett callers Sunday afternoon.

The remains of Miss Mary Gaggin, Antioch, were interred in the Liberty cemetery on Monday afternoon.

Six hundred men employees of the American Steel and Wire Co., of Waukegan had a day's outing at the Frank Larwin resort on Saturday.

A number from Trevor and vicinity attended the Ringling Bros. circus at Kenosha Friday evening.

LAKE VILLA

Mr. and Mrs. Charles Glosser of Maywood spent the past week at the former James Atwell home in arranging business matters pertaining to the Atwell estate.

The Angola Cemetery Society held a business meeting last Thursday afternoon and voted to hold a public card party at the village hall on Wednesday evening, August 18, in order to raise funds for necessary work in the cemetery. There will be tables for bridge, bunco, 500 and pinocle and good prizes and refreshments.

Mr. and Mrs. Edward Leonard, who have been living in Chicago for some time have come back to Lake Villa and are with their parents, Mr. and Mrs. James Leonard.

Mr. and Mrs. Charles Marks of Owasso, Michigan, were guests of Mrs. Mary Smith and daughter, Kathleen of Flint, Michigan, were guests of Mrs. Marks' sister, Mrs. James Leonard and family a few days last week and called on friends.

Mrs. U. G. Sterling of Latham, Mo., and Mrs. G. T. Sterling of California, Missouri, spent the last two weeks with Mrs. U. Sterling's sister, Mrs. Mary H. Miller and her son, Earl Miller and wife here, and Mrs. Miller's son, Howard Miller of Wilmette and her daughter, Mrs. Agnes Zack of Chicago have also been out to spend some time with their mother. Mrs. Sterling and her daughter made the trip from Missouri by bus and started Sunday morning on the return trip.

The German-Hungarian home for old people here entertained a large party of friends at the home Sunday and their guests enjoyed the many amusements provided.

The Ladies' Aid Society will meet on Wednesday afternoon, August 4, with Mrs. Pedersen at her home and final plans will be made for the annual summer sale on Aug. 13th, when a variety of articles will be offered for sale.

The local fire department was called to the Thorn subdivision last Thursday noon to quench a grass fire which threatened the cottages. At this season of the year, extreme caution is necessary to prevent these fires, as only a match or a lighted cigarette or cigar stub might start a disastrous fire.

Mr. and Mrs. Harry Nickerson and Gene were called to Indiana last week by the very serious illness and later, the death of Mr. Nickerson's father. They returned late in the week, following the funeral on Friday.

Mrs. Irving Barnstable is still a patient in St. Therese hospital, but is expected to be able to come home soon.

Mrs. Eastman of Chicago is spending some time with her sister, Mrs. Nettie Frazier.

Mr. and Mrs. A. McGlashan and children of Chicago who have been with their parents for a short visit, started the first of the week on a vacation trip to Milwaukee, then going by boat across the lake into Michigan and northern points.

Mrs. Vera Philipp left Sunday to spend a couple of weeks with relatives at Calby, Wisconsin.

Mr. and Mrs. Oliver Wilton and son of Chicago spent Sunday at the Wilton home here.

Miss Bojan Hamlin is receiving congratulations on winning a scholarship at Bryn Mawr college in Pennsylvania

and she will enter there this fall. This is a valuable award but Bojan is a good student and has earned it.

Allendale School for boys held its annual homecoming on Sunday and many former students spent the day there renewing acquaintances and friendships formed several years ago for some of the older ones. Dinner was served in the big dining room and Captain Bradley and his wife were very happy in greeting so many of their "boys."

Mr. and Mrs. Harvey Meyer have moved into the Reynolds cottage on Oak Knoll Drive. This was the former J. McGlashan cottage.

Mrs. Belle Kellogg, who has been with her aunt, Miss Mary Kerr, for a few weeks, started Wednesday evening on her return trip to her home in Los Angeles, California.

The work on the P. W. A. project, that of the water-system of the village, is well under way. The well is drilled and water pipes are strung along the streets, ready for the digging to begin. The regular meeting of the Fox Lake Cemetery society will be held Thursday evening, August 5, at the Monville school house and members are asked to be present. Eva Atwell, secretary.

Miss Alice Riordan spent last week with the family of her uncle, M. J. Riordan at Muskegon, Mich., and when she came home Saturday a group of her young friends returned with her to spend Saturday and Sunday here.

What's New in Radio?

By J. F. Witkowski
Principal, School of Radio,
International Correspondence Schools,
Associate Member,
Institute of Radio Engineers

A NEW radio range system has been developed by United Air Lines to provide airplane pilots with positive identification of airport location. A local radio beam carrying identifying code signals intercepts the regular radio beam about 30 miles from the airport. The pilot follows the local beam until he is directly over the landing field. Voice transmission is not interfered with by the local beam.

In preparation for the proposed trans-Atlantic air service, a new radio station is being built at Rynanna, a seaplane base on the west coast of Ireland. The new station will be used to flash weather reports to the planes flying the route.

Pilots on Lake Michigan are aided in bringing their ships into the harbor at Ludington, Michigan, by checking the interval between the reception of a radio signal broadcast from the Ludington lighthouse, and the sound of the foghorn sounded simultaneously at the lighthouse. Sound travels at a constant speed of approximately a fifth of a mile a second. The pilot knows that if he hears the foghorn 10 seconds after the radio signal, he is two miles from the harbor.

Wooden control towers, equipped with telephones and short-wave radios, are being used to direct traffic on California highways. Providing a wide range of view and quick communication with patrol cars and police centers, the towers are proving highly effective in preventing the snarling of traffic on congested main routes.

TREVOR

Mr. Mease and William Oetting, Chicago, were Trevor callers Tuesday.

Mrs. Charles Oetting, son, Louis, and Mrs. Joseph Smith were Antioch callers Tuesday evening.

Mrs. William Boersma spent Wednesday with her parents, Mr. and Mrs. Paul Ganslin, Wilmett.

A large number from Trevor and vicinity attended the wedding ceremony of Miss Marguerite Evans and Earl Elfers at the Lutheran church, Wilmett, on Tuesday afternoon.

Guy Loftus, Wilmett, was a business caller in Trevor Wednesday.

Mr. and Mrs. James Lamb, daughter Betty Jane, cousin, Marguerite Hallett, and Mrs. Helen Hallett, called at the Joseph Smith home Thursday evening.

Mrs. William Smith and sons, Douglas, Wis., visited her mother, Mrs. Mattie Copper, Friday.

Mrs. George Robinson and daughters, Joyce and Beverly, Kenosha, spent from Wednesday till Saturday with her parents, Mr. and Mrs. William Evans.

A small number of the Willing Workers enjoyed a put luck dinner at Rock Lake picnic grounds on Thursday. They will meet at the same place in two weeks.

News of ANTIOCH and Vicinity

Edward Sorenson Weds Chicago Girl

Miss Vera Allport, daughter of Mr. and Mrs. Samuel Allport of Chicago, and Edward Sorenson, son of Mr. and Mrs. Einar Sorenson of Channel Lake, were married July 20 at Crown Point, Indiana.

The couple will make their home at Channel Lake where Ed is employed at his father's resort.

YOUNG COUPLE ARE MARRIED IN WILMOT

In a quiet ceremony at Peace Lutheran church in Wilmot yesterday, Miss Norma Holstein, daughter of Mrs. Norma Holstein of Mondovi, Wis., became the bride of Robert Goodell, son of Mr. and Mrs. Glen Goodell of Antioch. The couple were attended by Miss Harriet Goodell, sister of the groom, and Frank Verkest of Antioch.

AMER. LEGION AUXILIARY MET AT WARD HOME

Mrs. W. W. Ward and Mrs. Paul Chase were co-hostesses at a meeting of the American Legion Auxiliary held at the Ward home at Channel Lake, Friday evening. Eighteen members were present. At the close of the business session, games of knowledge were enjoyed. Winners of prizes were Mrs. Otto Klass, Mrs. B. R. Burke and Mrs. A. P. Bratrude. The next regular meeting will be held August 13th at the Legion Hall.

LADIES' AID TO MEET AT ANZINGER HOME

The next regular business meeting of the M. E. Ladies' Aid will be held Wednesday, August 4, 1937 at the home of Mrs. Joseph Anzinger at Grass Lake.

LADIES' AID TO SPONSOR ICE CREAM SOCIAL

Ladies of the Methodist Church are sponsoring an ice cream social at the parsonage at 1413 Lake street, Friday afternoon and evening, July 30th, from 4 o'clock to 9. Ice cream and cake will be served, the proceeds to be paid on the parsonage debt.

ANTIOCH WOMAN'S CLUB TO SPONSOR LUNCHEON AND CARD PARTY

The Antioch Woman's club is sponsoring a Dessert-luncheon and card party to be held at St. Peter's Hall Tuesday, August 17th. Door prizes, a prize for each table and an extra gift for each person will be given.

Antioch Girls Are Vacationing in East

Miss Ardis Toft and Miss Doris Mason, Antioch teacher, left Monday for a vacation trip through the eastern states. They expect to visit New York, Philadelphia, Washington, D. C., and other places during the next two weeks. Miss Mason, whose home is in Grinnell, Iowa, recently returned to Antioch after having completed a summer course at Des Moines.

Make plans now, tickets are on sale for the Antioch Woman's club Dessert-luncheon and card party to be held at St. Peter's hall Tuesday, August 17th, door prizes, a prize for each table and an extra gift for each person present.

MILLBURN

On Sunday afternoon Gordon Bonner called on his uncle, R. G. Murrie, who is in St. Katherine's hospital in Kenosha, where he is recovering from a major operation, the amputation of his foot, which was performed last Tuesday.

Mrs. Grover Linn of Chicago spent Thursday and Friday with her sister, Mrs. E. A. Martin.

Barbara Bock of Glenn Flora, Wis., spent several days with her cousins at the J. S. Denman home.

Mr. and Mrs. John Dickey and family of Forest Park spent the week-end at the D. B. Webb home.

Miss Bernice Clark returned to Evanston Sunday after a few days visit with her parents, Mr. and Mrs. Harley Clark.

Mrs. Alice Spring was called to Lake Villa last week due to the illness of her sister, Miss Mary Kerr.

The Millburn Maidens held their regular meeting at the school house on Wednesday, July 21. Thelma Clark gave a talk on "Proper Foods for Health." Ruth Glenn gave a talk on "Posture and Happiness." Margaret and Helen Prince and Elaine Jahnke gave a tap dance. The members decided to have their entertainment on August 3rd.

Miss May Dodge spent Tuesday at the W. H. Miller home at Sand Lake.

La Vergne Harkness and her grandmother, Mrs. Miller, are recovering nicely from their injuries received in a recent auto accident.

Mrs. Mattie Edwards and grandson, Edward Dickey, returned to Forest Park on Monday after a week's stay at the D. B. Webb home.

Mr. and Mrs. B. L. Evans are spending two weeks on their property at Eau Claire Lake, Wisconsin.

A reading room is maintained at the above address and is open Wednesday and Saturday afternoon from 2 until 4 o'clock, and Wednesday evening from 7 until 8 o'clock.

CHRISTIAN SCIENCE CHURCHES

"Truth" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 25.

The Golden Text was, "The truth of the Lord endureth for ever. Praise ye the Lord" (Psalms 117:2).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O Lord, thou art my God; I will exalt thee, I will praise thy name; for thou hast done wonderful things; thy counsels of old are faithfulness and truth" (Isaiah 25:1).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "If thought is started at the strong claim of Science for the supremacy of God, or Truth, and doubts the supremacy of good, ought we not, contrariwise, to be astounded at the vigorous claims of evil and doubt them, and no longer think it natural to love sin and untruth to forsake it, no longer imagine evil to be ever-present and good absent? Truth should not seem so surprising and unnatural as error, and error should not seem so real as truth" (pp. 130, 131).

Methodist Episcopal Church

Rev. L. V. Siller, Antioch, Illinois. Church School 9:30 a. m.

Worship Service—11:00 a. m. Choir rehearsal every Wednesday at 7 o'clock p. m.

Official Board meeting first Monday evening of every month.

Ladies Aid business meeting first Wednesday of every month at 3 p. m.

Friendship Circle business meeting 3rd Wednesday of every month at 8 p. m.

St. Ignatius' Episcopal Church

The Rev. J. E. Charles, 10th Sunday after Trinity, Aug. 1st, 11:00 A. M. Morning prayer and sermon.

Please observe that there will be no service at 7:30 A. M. on August 1st.

We invite you to worship with us.

"Lawyer's Alcove"

"Lawyer's Alcove" is the name given to a volume of poems selected from the best poems by lawyers, and about lawyers. Included in this volume are Shakespeare's "Sonnet CXXXIV"; Blackstone's "A Lawyer's Farewell to His Muse"; Justice," by John Quincy Adams; Landor's "At the Buckingham Sessions," "The Judicial Court of Venus," by Jonathan Swift; Saxe's "Belless Barrister," and his "The Lawyer's Valentine," "General Average," by William Allen Butler; "The Festival of Justice," by Carlton, and Riley's "Lawyer and Child."

Star Was Flaw in Telescope

In 1873, Otto Struve, the great Russian astronomer in charge of the Pulkova observatory near St. Petersburg, announced that he had discovered "the dark companion of Procyon," a star whose existence had long been suspected. So, for many years, says Collier's Weekly, he published his frequent observations of it. Then, one day, he was greatly embarrassed to learn that his famous discovery was only a flaw in his telescope lens.

Bridge Not Named for Inventor

Strange as it seems, with all the bridges erected in this country, not one is named in honor of Thomas Paine, American patriot and inventor of the first iron suspension bridge, on idea he got watching a spider spinning its web, while Paine was meditating in his garden.

Boroughs of New York

Brooklyn is one of the boroughs which make up the city of New York, the others being Manhattan, Bronx, Richmond and Queens. Each borough has a president, the mayor being over all the borough presidents.

Personals

M. M. Schnurr, principal of Union Free High School at Wilmot was transacting business in Antioch Friday.

Mrs. Freddie May was the guest of Mrs. William Evans at Trevor Friday. Mrs. Jake Drom and daughter, Edna, spent Friday afternoon at Trevor visiting the Patrick sisters.

George B. Bartlett spent Tuesday afternoon in Waukegan.

George Goodman of Albion, Wisconsin, was calling on friends in Antioch, Tuesday.

Mr. and Mrs. John Doyle entertained as week-end guests their son, Donald and wife, Mr. and Mrs. A. N. Barton, Mrs. William Chambers, all of Chicago.

Make plans now, tickets are on sale for the Antioch Woman's club Dessert-luncheon and card party to be held at St. Peter's hall Tuesday, August 17th, door prizes, a prize for each table and an extra gift for each person present.

Don't miss it! You may be the fortunate one. Where and what? Big Annual Card Party at St. Peter's Hall, Thursday, Aug. 12, 2 p. m. Many attractions offered with prizes for each.

Mrs. Margaret Kelly and daughters and Joe Kintred of Chicago spent last week at Ken-Doyle at Channel Lake.

Mr. and Mrs. Fred Haun of Kenosha were guests of Mrs. Haun's mother, Mrs. Rebecca McGreal, Tuesday.

Mr. and Mrs. Oliver Mathews spent Sunday in Madison, Wisconsin.

Mrs. Herman Rosing is visiting her parents, Mr. and Mrs. William Hillebrand, at Eau Gallie, Florida.

Mrs. L. V. Siller and daughter, Dolores, returned home Sunday from a week's visit with her mother, Mrs. Margaret Canode, at Oregon, Illinois.

Mrs. George McDonald is spending the summer with her parents, Mr. and Mrs. William Cooper at Channel Lake.

Mr. and Mrs. John Rotnour and daughter, Gloria, and Mrs. Lillian Rotnour spent Sunday with Mr. and Mrs. V. B. Feller.

Make plans now, tickets are on sale for the Antioch Woman's club Dessert-luncheon and card party to be held at St. Peter's hall Tuesday, August 17th, door prizes, a prize for each table and an extra gift for each person present.

Mr. and Mrs. James McMillen spent last week in Springfield.

Mrs. Carter Johnson and daughter of New Orleans are the guests of her mother, Mrs. Eleanor Micheli and grandmother, Mrs. C. E. Hernan at Bluff Lake.

Sol LaPlant is very ill at his home on South Main street.

Miss Maryette Wilton left this morning (Thursday) for a two months' visit with friends and relatives at Bostwick, Nebraska.

Mrs. James Robertson and son, Donald, of Canada are spending the summer with Mr. and Mrs. John Murray.

The Rev. and Mrs. J. E. Charles left Monday morning for a motor trip around Lake Michigan. They expect to spend a week with friends at Frankfort, Michigan, returning to Antioch the end of next week. Dr. Earl J. Hays will officiate at a service of morning prayer in St. Ignatius' church on Sunday morning, August 1st. The usual schedule of services will be resumed on Sunday, August 8th.

Mrs. John Doyle visited with friends in Chicago several days last week.

Here's your opportunity to entertain without work. Bring your guests to the Annual Party at St. Peter's Hall, Thursday p. m., Aug. 12. Bridge—500—Bunco—Pinocle. Prizes for each table. Refreshments. Other gifts given.

HICKORY

Mrs. Ellen Tillotson of Kenosha is visiting her daughter, Mrs. E. W. King.

Mr. and Mrs. Frank Ely of Kenilworth called at the John Crawford home Sunday afternoon.

Mr. and Mrs. Al Oberlein of Glenoc called at Mr. and Charlie Peters' Saturday evening.

Mr. and Mrs. Gerhardt Lange and baby of Hebron and Bob Yopp of Antioch were Sunday dinner guests at the Emmet King home.

Bert Edwards has a new Chevrolet car.

George R. Thompson of Zion called at W. D. Thompson's Sunday evening.

Mr. and Mrs. Delaplane of Waukegan visited the Curtis Wells home Sunday afternoon.

Mr. and Mrs. Walter Olsen of Chicago visited the Hugo Gussarson family Tuesday of this week. Miss Ruth Gussarson, who has been visiting relatives in Chicago for the past two weeks, came home with them.

Mrs. O. L. Hollenbeck and grand daughter Charlotte of Millburn visited the W. D. Thompson and Curtis Wells home on Tuesday.

Crops Classified by Effect on Soil

National Farm Program Lists Them All in Three Groups.

By L. R. SIMONS, Director of Extension, U. S. Department of Agriculture, WND Service.

Crops are classified in three ways to determine bases and rates of payment under the national soil conservation program. These are soil-depleting, soil-conserving, and soil-building crops.

Classified as soil-depleting are the crops that take plant food out of the soil, or leave the land exposed to severe erosion. The soil-conserving crops do not necessarily add fertility to the land, but hold the soil in place and help to maintain plant food in the soil. The soil-building crops are those which, when used in certain ways as when plowed under as green manure, definitely add to the fertility of the soil.

Furthermore, says the United States Department of Agriculture, two classes of payments are provided. The first is called a soil-conserving or diversion payment and is made for substituting soil-conserving and soil-building crops on "soil-depleting" "base" acres. The maximum acreage on which this payment is made is 15 per cent of the soil-depleting base acreage on a farm in New York state. The rate of payment for the entire country is \$10 an acre, but varies according to the productivity of the land. It may be slightly larger or slightly less in parts of New York state.

The second type of payment is called a soil-building one and is made for planting soil-building crops on land which has produced at least one harvested crop, other than wild hay, since January 1, 1930, or for approved soil-building practices on crop land or pasture. These payments will be made at rates and for practices recommended by the state agricultural conservation committee and approved by the secretary of agriculture.

Work Animals Need a Balanced Ration

For economy and efficiency, the horse and mule are hard to beat. Good work animals supply a highly satisfactory form of pulling power for farm implements and machinery, and they utilize feed crops that can be grown at home. But to get the best service out of work stock, care must be exercised to feed it properly.

Corn, oats, and barley are about equal in feeding value, but corn is a little cheaper, usually, for feeding mature animals. Barley should be crushed or ground before feeding. A great variety of hays are suitable for horse or mule feed. For each grower, the best type to feed is that grown on his own farm. Professor Huffer of North Carolina State college stated:

Among the hays and roughages fed with good results are: Lespedeza, timothy, clover, corn stover, soybean, cowpea, alfalfa, and pennut. When timothy and ear corn are fed, it is well to include a quart of wheat bran each day to balance the diet.

Animals at work need 2 to 2½ pounds of feed, dry roughage and concentrates combined, for each 100 pounds of live weight. A 1,000-pound mule should receive 10 pounds of hay and 10 pounds of grain.

When animals have plenty of good hay or pasture, and are not working, the grain feed may be cut in half.

Drying Grass

A number of experiments in the United States have shown that artificially dried grass has a higher feeding value than grass which was exposed to inclement weather in the hay-making process. Now comes a report from England that hay-making as practiced there also is a wasteful process, in which losses of some 25 per cent occur, and that even hay made under favorable natural conditions from mature grass is of comparatively low feeding quality. The English investigations have shown that grass cut young—that is, from two to eight inches high—and dried by hot air or other gases, compressed and stored, will retain practically unimpaired the qualities it possessed as fresh grass.—Wallaces' Farmer.

Down on the Farm

Two tomatoes, one on top of the other, are being grown in Scotland.

Women on farms in this country work an average of 64 hours each week, and many of them work as high as 77 hours.

Strawberries are one of the few fruit crops from which the grower may obtain a return on his investment to a comparatively short time.

A new role is seen for the "plant doctor" in coming years, that of forecasting severity of crop diseases for the next growing season.

In using orchard implements care must be taken to prevent injury to the trees.

A rancher in Maui Island, Hawaii, reports having 1,000 cattle on cactus without water for four months. Succulent leaves, and dew on the leaves supplied all the "drinks."

A new sweet corn for the South, developed in Texas, is so able to resist drought that a full crop of roasting ears was reported if no rain fell from planting to harvest.

Mona Island Used by Pirates
Mona Island in Mona passage, between Santo Domingo and Porto Rico, is chiefly interesting geologically and for its romantic associations. Its rock walls rise more than two hundred feet; reefs surround it, and landing is impossible except for small boats at three small beaches. The whole base of the island is honeycombed with caves, some as large as six miles in circumference. These, combined with Mona's loneliness and its strategic location on one of the main trade routes of the Spanish Main, made the place attractive for pirates, and if the old traditions are correct, it was extensively used by them in the buccaneering era.

Voice Isn't Loud Enough
"De voice of conscience ain't loud enough foh mos' men," said Uncle Eben. "Dey needs an alarm clock."

Yesterdays

Forty-two Years Ago

The friends of Ernest Johnson, who was injured on the Fourth of July, at Selter's Sportsmen's Home, have raised \$134.50 to help him until he is able to do something for himself. The dance, given by the gentlemen, netted \$112.75; the raffle, given by the ladies, added \$16.75 to the offering, and C. O. Foltz & Co. gave one-half of the receipts from the sale of soda water and ice cream on two days, amounting to \$5.00, which swells the amount to \$134.50. This amount has been placed in the Bank of Antioch, and he is very thankful to all who worked for his benefit.

The Village Board met Tuesday evening, with every member present. Bills to the amount of over \$200 were audited and ordered paid. A sidewalk was ordered built on Pleasant Avenue, from Main street west to the west line of J. C. James, Jr.'s lot. A petition to allow saloons to remain open until 11 o'clock Saturday nights and other evenings where there is anything special in town, was not granted. The Street Commissioner reported the sewer system as completed. The Board adjourned to Tuesday evening next.

The Ladies' Aid Society of the M. E. Church gave a social at Woodman Hall Wednesday evening of last week. A fine program was rendered and refreshments were served.

During the storm, Monday, the barns of Ed Murray and on the Lyman Starr farm, in Newport township, were struck by lightning and burned to the ground.

A large delegation from Chicago arrived at the Club House on Saturday afternoon. Over two hours were enjoyed in fishing and their work was rewarded with remarkable success. In the evening, Captain Richardson, who has so generously contributed to the pleasure of every guest coming to Channel Lake, called with his steamer and barge, and cordially invited all ladies and gentlemen to join in a trip around the lake. The Captain pointed out to the visitors the beauties and the advantages of Channel Lake as a great watering resort. He suggested the improvement contemplated, and that are being made by the committee on improvements, and predicted that in a few years Channel Lake, with its sublime scenery, would be fully appreciated as the popular summer resort of the great west.

Dr. E. H. Ames has received his commission as Medical Examiner for the Great Camp for Illinois, Knights of the Macabees. The selection is one that cannot be improved upon.

Mr. and Mrs. R. C. Higgins are entertaining their niece, Miss Evelyn Knilians, of Delavan, Wis.

TEN YEARS AGO

Plans for the utilizing of the \$175,000 appropriation made by the last legislature for a dam in the Fox River system were brought to a halt last week when it was learned that an error in the wording of the bill made it designate a location at the Nippersink creek rather than the one below Pistakee Lake.

Temporary repairs were made at the dam at McHenry and it is planned to use the \$10,000 appropriation made to repair the dam there this season. The McHenry dam was raised 32 inches last week in an experiment to determine what effect a dam at that spot would have on the levels of the lakes. Preliminary measurements made this week by the Fox River conservancy board indicated that the water had already raised 18 inches at the Fox river bridge and 5 inches in Lake Marie.

Ten days more will be required before a full check can be made.

The Ladies' Guild of St. Ignatius' church will hold their annual summer bazaar at the parish hall on Wednesday, August 10th beginning at 10 o'clock. Fancy work of all kinds will be on sale at reasonable prices. Supper will be served from 5:30 to 7:30.

Mr. and Mrs. Bert Dickey are leaving Friday of this week to attend the Dickey reunion at Greenville, Ohio.

SUNDAY DINNER Suggestions

By ANN PAGE

MEAT prices are again rising. Best forequarter cuts of lamb, veal and beef, in that order. Eggs and cheese are excellent choices.

It is the exceptional vegetable now which does not fall in the cheap or reasonable class. Outstanding values are to be found in salad greens and vegetables, particularly lettuce, tomatoes, celery, cucumbers and green peppers.

New apples are more plentiful, plums are cheap and abundant. Plentiful supplies of peaches and Bartlett pears are promised for the near future.

The following meals may be eaten either outdoors or in.

Low Cost Dinner
Jellied Veal
Coke Slaw
Bread and Butter
Plum Pie
Tea or Coffee

Medium Cost Dinner
Cold Cuts
Creamed Potatoes
Green Beans
Bread and Butter
Cantaloupe with Ice Cream
Tea or Coffee

Very Special Dinner
Fruit Cup
Roast Frying Chicken with Stuffing
Glazed Carrots
Green Peas
Combination Salad
Peach Shortcake
Coffee

Mrs. Ada Verrier and daughter, Bertha, and Mrs. Gus Schroeder visited at Walworth Sunday.

Mr. and Mrs. James Babor entertained about twenty relatives over Sunday.

W. A. Rosing and Frank Huber made a trip to Detroit Tuesday after a new Studebaker car for Mr. Rosing. Mr. and Mrs. Floyd Horton and Mrs. J. B. Drom were Waukegan shoppers last Friday.

Wm. Steinger returned Monday from Victory Memorial Hospital at Waukegan where he underwent an operation for appendicitis.

George J. Malek and family of Chicago arrived Saturday morning. Mrs. Malek and children will spend the rest of the summer with her parents, Mr. and Mrs. J. Babor.

Mrs. C. B. Harrison was a guest at the home of Frank Galiger at Round Sunday.

The wedding of Miss Hazel Hamington of Chicago, and Thomas P. Proctor, Jr., of Grayslake was solemnized at Allendale Memorial chapel at Lake Villa on last Saturday. Rev. Dixon of St. Ignatius' Episcopal church performed the ceremony and visiting pastor Dr. J. J. D. Hall pronounced the benediction and preached a short marriage sermon.

Language Spoken in Afghanistan

The language spoken in Afghanistan is Pashto or Pakhto (there are several other pronunciations in various tribes). It is a Hindu-Persian language written in Arabic characters, with three letters peculiar to Pashto. Persian is spoken by educated Afghans.

What's New in Radio?

By J. F. Witkowski
Principal, School of Radio,
International Correspondence Schools;
Associate Member,
Institute of Radio Engineers

A NEW radio range system has been developed by United Air Lines to provide airplane pilots with positive identification of airport location. A local radio beam carrying identifying code signals intercepts the regular radio beam about 30 miles from the airport. The pilot follows the local beam until he is directly over the landing field. Voice transmission is not interfered with by the local beam.

In preparation for the proposed trans-Atlantic air service, a new radio station is being built at Rynenna, a seaplane base on the west coast of Ireland. The new station will be used to flash weather reports to the planes flying the route.

Pilots on Lake Michigan are aided in bringing their ships into the harbor at Ludington, Michigan, by checking the interval between the reception of a radio signal broadcast from the Ludington lighthouse, and the sound of the foghorn sounded simultaneously at the lighthouse. Sound travels at a constant speed of approximately a fifth of a mile a second. The pilot knows that if he hears the foghorn 10 seconds after the radio signal, he is two miles from the harbor.

Wooden control towers, equipped with telephones and short-wave radios, are being used to direct traffic on California highways. Providing a wide range of view and quick communication with patrol cars and police centers, the towers are proving highly effective in preventing the snarling of traffic on congested main routes.

Ben Franklin's Magazine
Benjamin Franklin in 1740 planned to issue a general magazine and outlined his project to John Webbe, an attorney, who was to be the editor. Webbe revealed the plan to Andrew Bradford, a printer, who proposed to issue a magazine in opposition to Franklin's. On February 12, 1741, Bradford announced that the first issue of the American Magazine, or a Monthly View of the Political State of the British Colonies, would be published the next day. On the same day Franklin announced that the first issue of the general Magazine would appear in our days.

Illians Play the Numbers
People are lottery minded everywhere and play the numbers by hunch and chance. In Italy, no pious person dreams of the Madonna without rushing out at once to play her numbers, 6, 8 and 15.

French Beans From India
French beans do not come from France. They come from India.

Lion Fears Human Beings
The lion is not naturally aggressive. On the contrary he fears human beings instinctively. A lion's first thought is to escape when he comes in contact with man, according to a game hunter in London Answers Magazine. He only attacks when driven to it as a last resource in self-defense, or when a lioness is accompanied by cubs. Sometimes, too, a lion may become a man-eater through old age, toothlessness, and lack of game to kill. But contact with mankind is avoided by normal lions, unless, as sometimes happens, they are moved by curiosity.

As It Should Be
Manly nobleness, womanly tenderness, childlike trust, these are among the host of natural affections and generous enthusiasms.

Women, like chickens, have less on when dressed.

First College Football Game
The first football game between colleges was played at New Brunswick, N. J., November 13, 1869, between teams representing Princeton and Rutgers. Rutgers won.

WILMOT

Peace Evangelical Lutheran Church will hold its annual Mission Festival and dinner next Sunday. Order of services is as follows: 10:00 A. M.—English Service, Rev. O. P. Heidtke, Morton Grove, Ill.; 2:30 P. M.—German Service, Rev. Martin Buenger, Caledonia, Wis.; 8:00 P. M.—English Service, Rev. E. Jaster, Racine, Wis. Beginning at 12 o'clock a chicken dinner will be served at the Lutheran hall. Everybody welcome.

Mrs. Ray Rudolph and son, Robert, are guests for the first of the week of Mr. and Mrs. William Anderson at Woodstock.

Mr. and Mrs. Lou Cole, Crystal Lake, were week-end guests of Mr. and Mrs. Frank Kruckman. Sunday Mr. and Mrs. Sari Hyde of Waukegan were there.

Miss Rose Yanny spent several days at Burlington with her mother, Mrs. Joseph Yanny who is seriously ill. The Misses Louise Schmidt, Ruth Thomas, Mildred Berger and Gladys Bufon are enjoying a vacation at Three Lakes, Wis.

Mr. and Mrs. Walter Carey and son, John Kelvin, McHenry, were dinner guests Sunday at the Carey home.

Mr. and Mrs. G. W. Lewis, Milwaukee, spent the week-end with Mr. and Mrs. Frank Burroughs. Mr. Lewis is recovering from a broken ankle, caused by a fall recently.

Mr. and Mrs. Francis Toynton, Chicago, and Mrs. Frank Toynton, Genoa City, spent Thursday with Mr. and Mrs. David Kimball.

Mr. and Mrs. Ray Bufon and

George Hyde attended the circus at Kenosha, Friday afternoon.

Mr. and Mrs. Russell Elwood and son, Chicago, were week-end guests of Mr. and Mrs. Harry McDougall.

Mr. and Mrs. Wallace Dobyns, Waukegan, spent Saturday evening at the Carey home.

Mr. and Mrs. Elmer Schnurr and daughter, Bernice, West Bend, were Sunday guests of Mr. and Mrs. Marlin M. Schnurr. Mrs. Ida Schnurr who has been at the Schnurr home in Wilmot for a few weeks, returned to West Bend and Mrs. Elmer Schnurr remained for the week in Wilmot.

There will be a special meeting of the Mothers' Club on Tuesday evening at the high school building to plan for the fair dinners on August 19 and 20.

Mrs. F. Reiter, of Silver Lake, is chairman of the card party to be held at the Holy Name church hall on Wednesday afternoon. Bridge, 500, euchre and buncie will be played. Refreshments will be served.

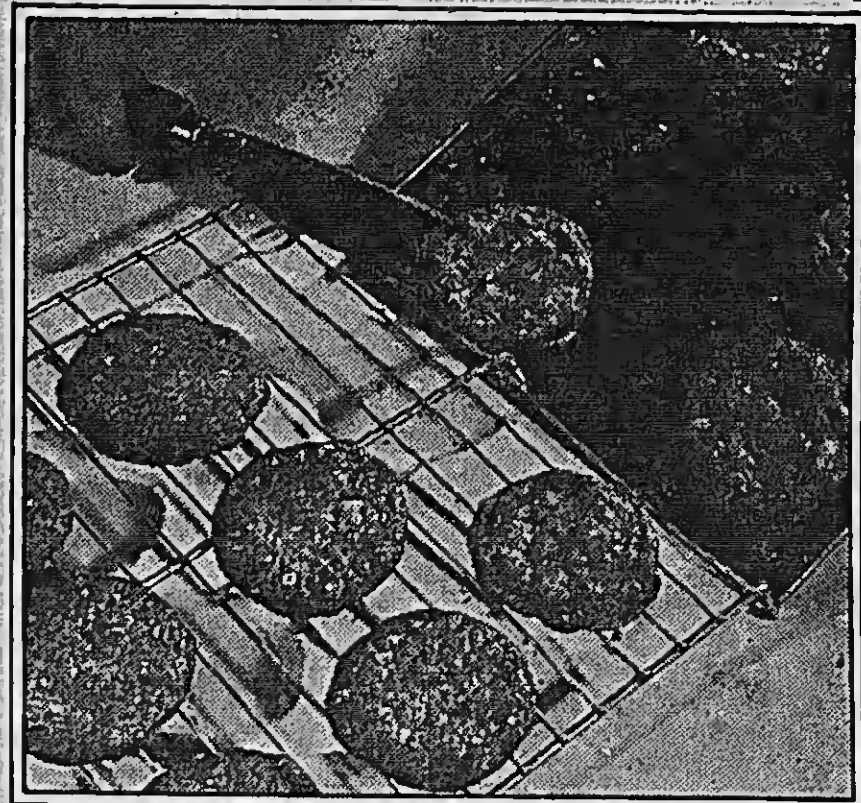

The M. E. Ladies' Aid is planning a cafeteria and lawn social on the lawn of Mrs. Clara Hartnell at Twin Lakes on Thursday afternoon, August 12th. They will give a dinner at the church hall in Wilmot on August 26. Plans for these affairs were made at the regular meeting held at the home of Mrs. Roy Blood, Friday afternoon.

The Wilmot Firemen held their regular business meeting at their hall on Monday evening. Plans for the bridge dedication were made.

Fred Madden and son, Windsor, Cora Madden, John Nett, Benjamin Nett and Grace Carey attended funeral services at Richmond Thursday for Katherine Madden Ramsey, of New York.

Kenosha Fair and Wilmot Centennial Preparations are being made to celebrate Wilmot's centennial with a historical pageant in connection with the Kenosha County Fair to be held at Wilmot August 19 and 20. The pageant will be on Friday evening, August 19. A meeting is to be held at the high school at eight o'clock Wednesday evening to plan for the pageant. The work is under the direction of George B. Price, County recreational director.

New Brazil Nut Cookie Recipes

Remove Butterscotch Cookies from Baking Sheet Shortly After Removing from Oven. Let Them Cool On a Rack.

Thin nut cookies are in great demand, particularly in homes brightened by young children. Running in and out of the house all day, burning up energy with every step, youngsters constantly ask for something to eat. Actually they need frequent "refueling." A new kind of cookie, crunchy and brown, is the treat of treats for them.

Butterscotch cookies are rich in energy elements as well as being delightfully flavored. There are a dozen and one ways to make them. But the liberal use of ground Brazil nuts in the recipe pictured as detailed below represents a pleasant departure from routine preparation. The nuts in this instance are an important part of the batter, not just something that is casually added. One caution to observe in baking is to remove them from the baking sheets before they have cooled and hardened.

Brazil Nut and Butterscotch Cookies

1-2 cup butter 2 teaspoons baking powder
1 pound brown sugar
2 eggs, well beaten 1-2 teaspoon salt
1 1-4 cups flour 1 1-2 cups chopped Brazil nuts

Melt butter, stir in sugar and mix well. Stir in beaten eggs. Sift flour with baking powder and salt, add nuts and stir into first mixture. Drop by teaspoonfuls onto a cookie sheet, greased with an unsalted fat, and bake in a slow oven, 325 degrees F., about fifteen minutes. Remove from pan after cookies have cooled half a minute.

• \$5.00 INSTALLATION ALLOWANCE

• Every home needs hot water in the summer! And now every home can enjoy a supply of hot water... always ready for use... at surprisingly low cost. A conversion unit makes a convenient hot water system from your old water-storage tank. It automatically supplies you with plenty of hot water for average family use. Quickly and easily installed... it can be installed now for a small down

payment... \$5 installation allowance... as long as 36 months to pay balance on your Gas Service bills.

A conversion unit brings you hot water at low cost. For full particulars on this offer visit or call your Public Service store. They will give you complete information without obligation.

To cover interest and other costs, a somewhat higher price is charged for purchases on deferred payment.

Farm Bureau Team Loses to DeKalb, 5-2

Last Saturday Lake County played DeKalb County at Sycamore and lost by a score of 5-2. Robert (Bob) Madison, pitched wonderful ball after having been ill in bed for three days the week before. He pitched six innings, struck out 16 men. However, one inning he hit two men with pitched balls, walked a third man, and then allowed a hit which scored three runs. Norman Nehmer relieved him in the seventh and allowed two hits and two runs. Wallace did the catching for Lake County.

Fogelson and LaMont were the batterers for DeKalb, Fogelson allowing six hits and two runs.

Lake County will play DeKalb at Shady Rest, Grayslake, on Saturday, July 31.

Royal Princess, Princess Royal

In Great Britain, a royal princess is a member of the royal family, either the daughter of a sovereign or the daughter of a son of a sovereign. She is styled, e. g., Her Royal Highness Princess Beatrice. Princess Royal is a title reserved for the sovereign's eldest daughter only. Her royal highness the Princess Royal is the Countess of Harewood, wife of the Right Honorable the Earl of Harewood.

Fluorspar From Latin Word

Fluorine gets its name from one of its sources, fluorspar, a glassy, readily fusible mineral. The name fluorspar is in turn derived from the Latin word for flowing, because the rock is so easy to melt. Hydrofluoric acid was discovered about 1670 by the German alchemist Schwannhard, who obtained it by mixing fluorspar and sulphuric acid.

Care of Pastures Insures Good Feed

Rotation of Crops in Two Fields Solution of Problem.

Early, continuous, and close grazing has made almost unnumbered acres of so-called "permanent pasture" into exercising grounds where animals scarcely get a mouthful of grass. A profitable pasture is not one on which an animal must hunt 24 hours a day for subsistence, but one where the animal can fill up on grass in a short time and then lie down to make meat or milk.

When the first warm days of spring come, the winter supply of feed is apt to be low, so thousands of farm animals are turned onto permanent pastures and the result is damaged, often ruined, pastures for the entire grazing season.

Keeping live stock off the permanent pasture another two weeks in the spring to allow the grass to get ahead of the animals, and then allowing it to keep ahead will double the yield of the permanent pasture.

First—Let permanent pasture make considerable growth before turning live stock onto it in the spring.

Second—Sow grass seed on bare spots and topdress the spots lightly with manure.

Third—Never graze permanent pasture down to bare ground. Allow the grass to have considerable leaf surface which is absolutely essential to the life of plants.

Fourth—Provide temporary pasture for early spring and mid-summer.

Fifth—Lime and fertilize to replace plant food taken off by live stock through many years. This application will return about \$4.00 in increased pasture for every dollar invested.

The Pennsylvania Experiment station experimented with an old, neglected, permanent pasture quite similar to many the country over.

The part that received no lime or fertilizer required four acres to maintain one cow on full grass feed during the summer. The part that was limed and fertilized required a little less than one acre to maintain a cow. The return per acre the first year, was four times the cost of the lime and fertilizer and five times greater than the return per acre from the unfertilized portion.

Have two plots, totaling about one acre for each 1,000 pounds of live stock to be pastured.

On plot No. 1, sow a mixture of oats and barley in early spring as soon as the ground can be worked. This plot should be ready for grazing in about one month and should last until July. Then plow or disk this out and barley plot and sow it to winter rye for grazing in late fall and early spring the next year.

The following spring when the rye becomes too woody for good pasture, plow the plot and sow it to sudan grass for summer and fall grazing. Plow the sudan stubble in late fall after the grazing season and so have it ready to seed to oats and barley again early the next spring, thus starting the rotation over again.

On plot No. 2, grow the same rotation of crops, but have the rotation "one crop behind" plot No. 1, so when the system is established by shifting the live stock from one plot to the other a continuous supply of green pasture will be available through the entire season.

Tips for Sheep Growers

Are of Tested Value

Treat the flock carefully for worms before they go on pasture. Treat every warm month. If this doesn't control parasites, treat twice a month, especially the spring lambs.

Shear your flock when the weather is warm enough that the wool burdens the sheep.

If a ewe doesn't give quite enough milk supplement by giving the lamb a little extra from a bottle. They learn quickly to come to you.

A creep for the lambs is a place where the lambs can go and the sheep can't. It makes the lamb grow faster, is easier on the ewe. It is a 100 per cent satisfactory proposition.

If you keep some ewe lambs for addition to the flock, keep good ones. The kind that sells best—that is what you are trying to produce.

Lime With Dolomite

Because they are cheaper, ammonium salts are rapidly replacing nitrates as fertilizers. These salts are acid forming and require the admixture of a liming substance. In many cases common limestone is used as the liming material and often with bad results because when used in considerable quantities it may cause the loss of plant food or render it unavailable to plants. Use of dolomite in the place of limestone not only eliminates this danger but also supplies magnesium to the soil which in many cases is lacking. —Pathfinder Magazine.

Varieties of Apples

Few people of the big cities know apple varieties, but those who do realize the marked differences in flavor and texture, when the fruit is used for table or "out of hand" eating. In the big cities the average fruit buyer at the stands asks for red apples, as his taste is guided chiefly by the eye. Most growers are entering in the eye and so are growing red kinds chiefly, yet there are some yellow and a few green colored kinds nearly or quite equal to the best of the red varieties.

Science Colors and

Improves the Onion

Agricultural science now takes another step forward in serving the farmer by painting onions a golden brown color, and thus saves the farmer thousands of dollars a year. In this paint job, the scientist uses minerals instead of ordinary paints, and the onions grow golden-brown in color with thick skins instead of a lemon-yellow with thin skins. The painting is done with the application of copper sulphate on muck soil.

In 1929 growers asked why onions grown on certain muck soils had thin skins of pale yellow color instead of thick brownish skins. They didn't keep and wouldn't sell.

Experiments were started in the greenhouses at the college of agriculture, Ithaca, N. Y., with muck brought in from the deposits where onions grew with poorly colored skins. There it was learned that under controlled conditions, copper sulphate would produce the kind of onions wanted. Results were then checked out in the open.

The scientists recommend 300 pounds of pulverized or saw grade copper sulphate to the acre. Most growers mix it with their fertilizer, spread this mixture on the muck, and harrow it into the surface layer.

Ditching With Dynamite

During wet seasons farmers find it necessary to do some emergency ditching to carry off excess water. Frequently it is impossible to dig such ditches. In this case, says the Prairie Farmer, dynamite ditching offers the best possibility of getting the job done immediately. An experienced man should handle the dynamiting. It is necessary to use a form of material that is impervious to water. Usually sticks are placed in holes 18 inches apart. It is then only necessary to connect up the first charge with the electric blasting machine, the others being set off by an "explosion wire" which is set up. Scattered mud causes less damage than standing water.

Vegetable Storage

Certain vegetables keep longest at certain temperatures. The following list, notes a writer in the Chicago Tribune, gives the recommended temperature and maximum storage period: Asparagus, 32 degrees, one week; carrots, 32-40 degrees, six months; cauliflower, 32 degrees, 30 to 40 days; celery, 32 degrees, 3 to 5 months; lettuce, 32 degrees, 3 to 4 weeks; spinach, 40 degrees, 5 months; and green tomatoes, 50-60 degrees, 1 month.

Wool and Hair

When wool and hair are examined and compared under the microscope wool is much simpler than hair. Wool grows from the upper layer of a double skin. Hair, on the other hand, is a thin, fibrous structure which is a modified form of epidermis growing from a short papilla sunk at the bottom of a follicle or tiny pit in the outer skin. As a result of this difference between hair and wool sheep have no hair. Their bodies are covered with a fleece. They are the only animals so covered.

The "Eternal City"

Rome has been called the "Eternal City" since the time of the ancient Romans. It was so called because people thought that no matter what happened—how many other empires might rise and fall—Rome would go on forever. In Virgil's "Aeneid" Jupiter tells Venus that he will give the Romans an eternal empire.

Moccasin Related to Copperhead

The water moccasin is a brownish snake from two to three feet in length and upon being disturbed he will display the inside of his mouth, which is about the color of cotton. The moccasin belongs to the order of pit vipers and is closely related to the copperhead. There is another water snake—Natrix—that closely resembles the moccasin, but he is harmless.

Hypo, Crystalline Compound

Hypo is a white soluble, crystalline compound, made by boiling a solution of caustic soda or of sodium sulphite with sulphur. Its chemical name is sodium thiosulphate. Hypo is extensively used in photography and is used also for removing excess chlorine from bleached fabrics.

AT LAST!

All your snapshots in Natural Colors! Amazingly Beautiful. Roll Developed, 8 Natural Color Prints for only 25c. Reprints, 3c each. Mail ad with film to NATURAL COLOR PHOTO (4) Janesville, Wis.

NOTICE

If you have cement work to do see Frank Ehrhardt, 1 mile east of Volo, on Route 20, or phone Round Lake 141 W. 1. Have a continuous mixer mounted on a truck, especially equipped for pouring flat surfaces such as cow-yards, barn floors, etc. Will also do all kinds of cement work. All gravel will be furnished and hauled. See me for estimates on complete jobs before letting your contracts elsewhere.

Money to Loan

I have clients who have money to lend on first mortgages on real estate and others who want to borrow money on real estate. If interested either way, I will be glad to talk it over with you.

Test for Dog's Intelligence

Tests on the intelligence of dogs have revealed that the dog which turns its eyes in their sockets instead of merely turning the head is the most intelligent. The tests also disclosed that dogs have an inherent love for games, are very discriminating, have a sense of humor, and display every evidence of vanity.
